

Greenpark Capital hires Matthew Arkinstall as Investment Director

Posted: 9 December 2008

Matthew Arkinstall has joined Greenpark Capital, a global leader in customised secondaries solutions, as an Investment Director. Matthew joins a highly specialist, multi-lingual and multi-cultural team of more than 20 people, 11 of whom are investment professionals. He will have responsibility for deal sourcing and execution.

Matthew has spent the last 15 years as a specialist in private equity, originally in infrastructure direct investment. He spent nearly 10 years at MLC in Australia where he took a leading role in the development of a multi-billion dollar portfolio of private equity funds around the world. Matthew is Australian and has a First Class Honours degree in Applied Mathematics from the University of Sydney. Matthew is also an Associate of the Institute of Actuaries of Australia.

Joanna Jordan, Operations, IR Director and Co-founder, comments:

“We are delighted to be further strengthening our team following Robert Savage’s appointment in September, and welcome Matthew to the team. Given the increased opportunities for respected secondaries players in the current market, we will continue to recruit talented individuals. We are looking forward to working together to enhance our deal sourcing and execution still further.”

Mathew Arkinstall comments:

“I am delighted to be joining Greenpark at such an exciting time for secondaries, in particular mid-market, European secondaries where we are focused. There is a huge opportunity for Greenpark to continue its development into a formidable mid market secondaries player and I am greatly looking forward to being a part of the company’s future success.”

Note to Editors:

Greenpark Capital www.greenparkcapital.com

Greenpark Capital is a dedicated secondaries specialist, with over €1.2 billion (\$1.8 billion) of capital under management. Established in 2000, it specialises in providing liquidity for investors in buyout, venture and other private equity investments who are seeking to sell their investments before they reach maturity. Greenpark funds are capitalised by major institutions from Europe, the US, the Far East and the Middle East.

The Company's multi-lingual, multi-cultural team has significant experience in corporate finance, ensuring the expert execution of transactions throughout Europe and across the world.

Greenpark Capital has a reputation for sound investment practices, innovative deal structuring and a highly responsive approach to sellers' specific needs. It has the recognised expertise to deliver customised solutions to investors with total reliability and confidentiality. Greenpark specialises in two types of secondaries transactions: single positions or portfolios of limited partnership interests, and portfolios of direct investments, with or without incumbent managers. With a proven investment strategy focus on value rather than volume and with an emphasis on less competitive, mid-sized European transactions, Greenpark is able to avoid the volume-oriented bulk end of the secondaries market to deliver superior returns.

The secondaries market is maturing rapidly and is now an established portfolio management tool. As both demand for secondaries and the seller base increase, a range of specialised products are coming on to the market. Greenpark Capital is at the forefront of this innovation.
